Summit Haque
haquesu@oregonstate.edu — (541) 250-7625 — linkedin.com/in/summit-haque/

RESEARCH INTEREST

Human Computer Interaction, CS Education, Software Engineering, Artificial Intelligence

EDUCATION

Oregon State University, Corvallis, OR — September, 2022 — Present
Graduate Student (Ph.D.)Advisor: Christopher Hundhausen

Oregon State University, Corvallis, OR — September, 2022 — December 2024
Master of Science (Computer Science) — CGPA: 3.92/4.00
Advisor: Christopher Hundhausen

Shahjalal University of Science and Technology, Sylhet, BD — January, 2013 — September, 2017
BSc. Engineering — CGPA: 3.96/4.00 (with **Distinction**)

CURRENT RESEARCH

FRONTIERS (NSF-funded): Collaborative project improving assessment in software engineering education by evaluating individual contributions to team projects from software artifacts (commits, issues, pull requests, code reviews). Contributed to a Delphi study on commit-quality rubrics (**Best Paper Award**, CSEE&T 2026); another paper is under review at ICSE (SEET) 2027.
GenAI in Problem Solving: Comparative study of how US and Bangladeshi computing undergraduates use GenAI while solving programming problems and how it affects their learning; a paper is under review at ICSE (SEET) 2027.

WORK EXPERIENCES

Department of EECS, Oregon State University — September 2022 - Current
Graduate Research Assistant

- Researcher and software developer in an NSF-funded project.

Graduate Teaching Assistant

- Teaching Assistant of CS 361 Software Engineering I. The main responsibility is grading students' assignments and helping them solve their course-related problems.
- Teaching Assistant of CS 352 Intro to Usability Engineering. My main responsibility is to assist the instructor during lectures. Also, I have to hold office hours to help students solve their homework.

Department of CSE, Shahjalal University of Science and Technology — April 2018 - Present (Study Leave)
Assistant Professor

- Taught Introduction to Computer Language, Introduction to Computer Application, Algorithm, Object Oriented Programming, Management Information System, Computer Graphics, and Microprocessor.
- Supervised students in their undergrad thesis and projects.
- Served as member in the Undergrad Curriculum committee.
- Served as Technical Committee member in the Undergrad Admission committee
- Served as Technical Committee member in Internation Conference on Bangla Speech and Language Processing 2019

Department of CSE, Metropolitan University Sylhet, Bangladesh — September 2017 - April 2018
Lecturer

- Taught Algorithm, and Artificial Intelligence

PROJECTS

- **SpeedScore Feature Development:** Collaborated in a 5-member team during a 1-week sprint to implement multiple new features in an existing web application. Actively participated in daily scrum meetings, user story creation, planning poker sessions, and sprint planning. Contributed to feature implementation, code reviews, and system integration using GitHub for version control and Jira for project management.
- **GenAI Across Borders:** It was a survey-based comparative analysis between undergraduate computing education students from Bangladesh and the United States regarding their access to, usage of, and concerns about generative AI assistants. Students from 6 universities from the two mentioned countries participated in the survey. It presented some key differences between the students from the two countries regarding their connection with GenAI in education.
- **HANDSHAKE : An Assessment of Usability:** It was a case study with an objective to find out existing usability issues of **Handshake** a job seeking platform based on a user interview. Prototypes of UIs were designed to solve the usability issues detected by the user in the interview.
- **GPT vs Google:** It was a lab study with an objective to compare Generative AI applications with Non-Generative AI while working on Machine Learning Challenges. In the study a group of participants were assigned some tasks to solve taking help from both GenAI and non-GenAI applications. After working on the tasks they answered some questions that focused on their experience on working with the applications. A statistical data analysis was performed on the data collected during the study session to compare between GenAI and non-GenAI.

PROFESSIONAL SERVICES

- *Guest Lecturer*, Dept.of CSE, Sylhet Engineering College 2018-2020
- *Guest Trainer*, Sylhet Polytechnic Institute 2021
- *Guest Trainer*, Bangladesh Computer Council, Sylhet Division Branch 2021
- *Instructor*, CCNA Program, Shahjalal University of Science and Technology 2019-2021
- *Guest Instructor*, PGD Program, IICT, Shahjalal University of Science and Technology 2019-2021

VOLUNTARY SERVICES

Bangladesh Student Association at Oregon State University June 2024 – May 2025
Vice President

- Organizing student's academic, cultural and extracurricular activities

CSE Society, Shahjalal University of Science and Technology Sept 2016 – Aug 2017
Vice President

- Organizing student's academic, cultural and extracurricular activities

ACHIEVEMENTS

- *Prime Minister Gold Medal 2017*, awarded by University Grant Commission Bangladesh
- *Scholarship*, awarded by University Grant Commission Bangladesh
- *Scholarship*, awarded by Shahjalal University of Science and Technology
- *Scholarship*, awarded by Widespace, A Sweden based Software Company

SKILLS

Programming Languages	Python, C, Java, SQL, HTML/CSS, R, JavaScript
Machine Learning & NLP	Deep learning, NLP, Transfer learning, CodeBERT, PyTorch, TensorFlow, scikit-learn
Generative AI	LLM coding tools (Copilot, ChatGPT, Claude)
Software Engineering	Agile/Scrum development, Code review, Project management, Usability engineering
Statistical Analysis	t-test, ANOVA, Mann-Whitney U, Wilcoxon, Chi-square, Correlation, Regression
Data Analysis	Data visualization, Thematic analysis, Qualitative coding, Inter-rater reliability
Study Design	Survey, Delphi, Interviews, Think-aloud, Experiments, Replication, Usability testing
Software & Tools	LaTeX, Git/GitHub, Jira, Figma, Qualtrics, Jupyter
